

Scholarship Automation Training Guide

(Departmental Scholarship Processes)

Included in this document are the detailed steps required for colleges and departments to process scholarships for students using the Scholarship Automation process in PeopleSoft.

This document includes training on:

- Scholarship Entry Access in PeopleSoft
- Creating Scholarship Item types
- Creating Scholarship (.csv) Files for Upload
- Uploading Scholarship (.csv) Files
- Reporting Center
- Guidance for Adjusting or Adding Amounts to Existing Scholarships

For questions, or to schedule in-person training, please contact the Office of Student Finance Scholarship Unit.

- Scholarship Unit Email: saosf@umn.edu

Academic Support Resources

UNIVERSITY OF MINNESOTA

Getting Started:

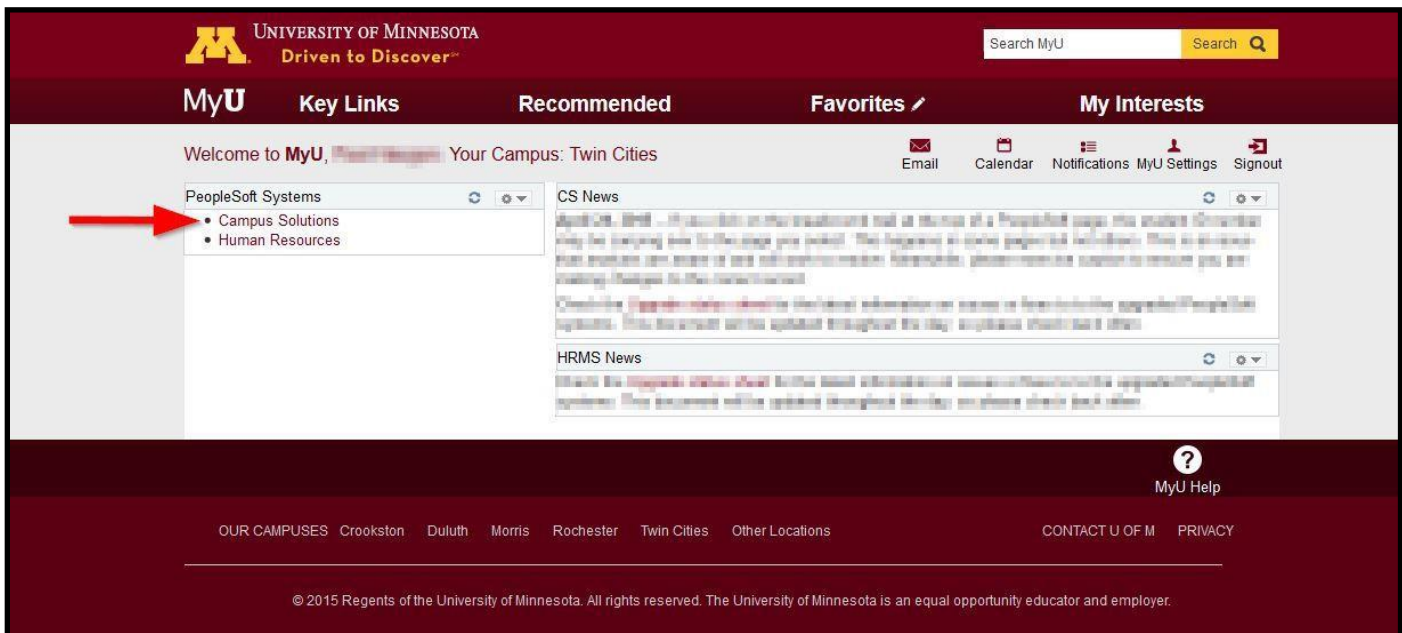

Scholarship Entry Access in PeopleSoft: The *UM Scholarship File Upload* and *UM Create Scholarship Item Type* pages in PeopleSoft require Access Request Form (ARF). Dept ID security will be applied to the Item Type Create page. Role level security will be applied to both the Item Type Create and Scholarship Upload pages.

1. Visit OIT Data Security's web page: <https://it.umn.edu/service-details/enterprise-access-requests> and fill out an "Access Request Form" (ARF) for "Scholarship Entry" by navigating to *CS Student Systems and Data > CS Applications > Scholarship Entry*.
2. Complete and submit the ARF to OIT Data Provisioning.
3. After access is granted - **Log into PeopleSoft Systems 'Campus Solutions'** through the **MyU Portal**: Sign in to the MyU Portal and click on 'PeopleSoft' under the 'Key Links' menu. Then click on the 'Campus Solutions' link under the 'PeopleSoft Systems' heading.

Creating Scholarship Item types:

1. In the portal, once you click on 'PeopleSoft' under your Key Links, make sure you are in **Campus Solutions**.

2. When in PeopleSoft Campus Solutions, navigate to:
 - "UM Create Scholarship Item Type": Main Menu > Financial Aid > UM Scholarships > UM Create Scholarship Item Type
3. Enter:
 - Academic Institution
 - Aid Year
 - and then click 'Add'

4. Enter your scholarship account string including Fund Code, DeptID, Program Code or Project ID, Account (800102), Chartfield 1/Chartfield 2
5. Click 'Search for Item Type' button to check for existing item types attached to the account string entered.

The screenshot shows the 'UM Create Scholarship Item Type' form. At the top, there is a navigation bar with 'Favorites', 'Main Menu', and a breadcrumb trail: 'Financial Aid > UM Scholarships > UM Create Scholarship Item Type'. Below this is the 'UNIVERSITY OF MINNESOTA CSPRD' header. The main title is 'UM Create Scholarship Item Type'. Underneath, there are fields for 'Institution: UMN TC' and 'Twin Cities/Rochester', and 'Aid Year: 2015' and '2014-2015'. A link 'Click here for help with this page' is also present. The 'Item Type:' field is empty. Below it is a separator '- OR -'. Then, there are input fields for 'Fund Code' (value: 1701), 'DeptID' (value: 12012), 'Program Code' (value: 20491), 'Project ID' (empty), 'Account' (value: 800102), 'Chartfield 1' (value: LMF0005451), 'Chartfield 2' (empty), and 'CS' (empty). A red arrow points to the 'Search for Item Type' button, and another red arrow points to the 'CS' field. At the bottom right, there is an 'Add' button.

6. That will pull up existing item types to be used
Note: If there is more than one item type attached to the account string, you will need to find the additional item types by using the search function .

This screenshot shows the same form as the previous one, but with search results. The 'Item Type:' field now displays '81500000070' and 'Thielen Family Scholarship'. A red arrow points to this result. The other fields remain the same as in the previous screenshot.

7. If no item type is found, or if you wish to create an additional scholarship item type on your account string, click 'Create Item Type' button.

UNIVERSITY OF MINNESOTA CSPRD

UM Create Scholarship Item Type

Institution: UMNTC Twin Cities/Rochester Click here for help with this page

Aid Year: 2015 2014-2015

Item Type:

A new item type (940000004069) has been created. (29000,154)

OK

Building Valid Chartfield Strings for Student Transactions

Item types used in the Student Fee and Scholarship setup also need valid chartfield combinations sent over to the Student and HR systems from the general ledger. These are translated into combo codes. When these are missing, fee setup cannot be completed - impacting tuition calculation, department revenue streams, and possibly resulting in erroneous student bills. Furthermore, when the chartfield combination is not present, a scholarship entry cannot be processed.

Example: a department has two different scholarships. Their chartfield strings are identical until it comes to chartfield 2 (CF2). Two budget journal entries are necessary to create separate chartfield combinations for each scholarship (which will result in two unique combo codes in the Student system).

- Fund 1000, DeptID 12012, Program 20491, Account 800102 and CF2 1000005267 (University Partnership Grant)
- Fund 1000, DeptID 12012, Program 20491, Account 800102 and CF2 1000005037 (Founders Free Tuition)

Follow the instructions below to enter a budget journal to add a chartfield combination to the general ledger. This triggers an overnight process that passes chartfield information to the Student system.

1. Navigate to: UM Commitment Control > Enter Budget Journals > Add
2. From Leger Group search option pull down select: KK _Budget Expense Ledger Group (first one)
3. From Parent Budget Entry type option pull down select: Original

4. Navigate to Budget Line tab and enter: Budget period (aid year), Fund, Dept Id, Program or Project Code, Account (must be 800100) and CF1 or CF2 if applicable. CF3's or FinEmplids are not allowed for scholarship account strings.
5. Click Save. Then click on process icon to post journal.
6. The account string will be available for use (e.g. creating an item type) after an overnight process.

Best Practices for Naming Scholarships:

Please follow the below guidelines when naming scholarships

Guidelines for Naming Scholarship Item Types in PeopleSoft

- Review both the scholarship MOA and any revised MOAs in STAR for the official name of the scholarship fund. In checking STAR:
 - We have found the donor has requested an updated scholarship name but the name had not been changed in PeopleSoft.
 - We have found scholarships where the name of the donor was cut off in PeopleSoft because the character limit exceeded 30 characters. Ex: Both the entire first name of both donors was used, allowing for only the first two letters of the last name.
- If the scholarship Item Type name is entered incorrectly or you find a scholarship name you want updated, contact Dianne Danov (d-dano@umn.edu) or Bob Balfour (b-balfo003@umn.edu) in the Office of Student Finance. They can review for the proper name and update it in PeopleSoft.
- Changes made to the Item Type name are reflected on the Students' Financial Aid Award Notice, the Student Account and on MyU portal. It is updated in the history panels of PeopleSoft so prior years are also updated on the student side. **Note:** The Item Type name, as it was awarded, will appear in STAR. If a change is made after the scholarship was awarded the name change will not be reflected in the STAR recipient list.

Naming Convention

- Only 30 characters are available for the scholarship Item Type name in PeopleSoft. Each space counts as one character.
- Use Scholarship, Fellowship or Award in the name – something descriptive (Ex: use David Wong Scholarship instead of only David Wong).
- Check the spelling of donor's names for accuracy. (Ex: "Jenine" was listed as "Jeannine").
- Include the donor's first and last name. If not enough characters, use the first initial of the donor's first names (Ex: W and R Pennington Scholarship instead of William and Rosemary Pennington Scholarship).
- PeopleSoft **will not accept a period or other special characters** (Ex. the "&" sign) in the Item Type name in Scholarship Automation. When trying to Save in PeopleSoft, you will encounter an error message. You will need to remove the special character and contact Dianne Danov or Bob Balfour to add the character.
- If character space is needed, you can also eliminate the spaces between the "&". That saves two characters and looks fine in PeopleSoft. It will appear as Bill&Susan Smith Scholarship. You will need to contact Dianne Danov or Bob Balfour to make this change.
- Capitalize the first letter of each word in the Item Type name (Ex: Samuel Anderson Scholarship, instead of Samuel Anderson scholarship).

- Do not use all capital letters when creating a Scholarship Item Type. Use *Class of 1946 Scholarship*, instead of *CLASS OF 1946 SCHOLARSHIP*.
- Use “Schol” if there is not enough space for the entire word “Scholarship” in the Item Type name.
- Use “Fellow” if there is not enough space for the entire word “Fellowship” in the Item Type name.

Summer Scholarships

- A separate dedicated Item Type is required for processing summer scholarships in PeopleSoft.
- You can include the word “Summer or SS” in the Item Type name to differentiate a Fall/Spring scholarship from a Summer scholarship when using the same name.
 - Example: John Doe Scholarship and John Doe Scholarship Summer

If you have any questions about new item types you are either creating or updating, contact Dianne Danov or Bob Balfour.

Upload your Scholarship File in PeopleSoft using Scholarship Automation

Creating Scholarship (.csv) Files for Upload:

Start by opening the **REQUIRED** Excel template. The “**Department Scholarship Template**” file can be found on the ASR website at asr.umn.edu/training-and-support/scholarship-administrators

Note: You will need to log in with your Internet ID and Password to access the web page.

Scholarship administrators

Although scholarship administration is decentralized on the Twin Cities campus, ASR provides tools and support to help you promote, award, and pay scholarships to students. The information listed below will help you gain access to the tools you need.

[Important Dates for Scholarship Administrators >>](#)

Upcoming meetings for scholarship administrators:

All meetings will be 1:00 p.m.-2:30 p.m. on Wednesdays in Walter Library, room 101.

- April 5, 2017
- June 7, 2017
- August 2, 2017

Note for Scholarship Data Reporting: Neither the “Scholarship Student Selector” nor the “FA Funds Summary” report in Reporting Center include all relevant data for official financial aid or scholarship reporting purposes. For any information you need for financial aid or scholarship statistical data please contact the University's Office of Institutional Research at 612-624-4851.

The “Department Scholarship File Template”

The current scholarship process is completed by using a template that needs to be uploaded into PeopleSoft. If you do not use this template your scholarship file will error and will not load.

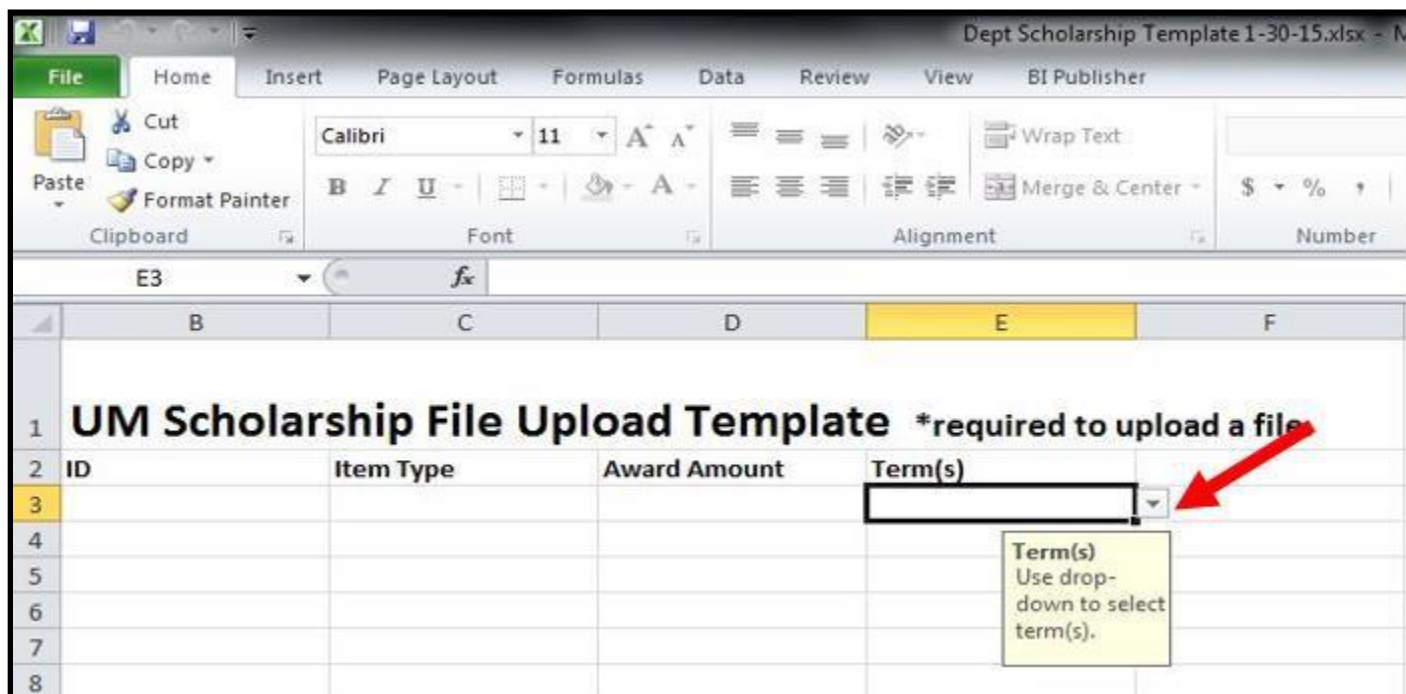

NOTE: It is recommended to use the *Department Scholarship File* template, located on the ASR Scholarship Administrators Training and Support page each time vs saving the template on your desktop.

In this template, you will enter data in the fields: Student ID, Item Type Number, Award Amount, and Term(s) to process your scholarships.

There are **edits on all of the columns within the template that must not be altered** for your file to upload successfully:

- ID = must be a 7 digit number
- Item Type = must be a 12 digit number starting with a 94
- Award Amount = **cannot be currency (contain \$)**. It must be formatted as a “Number” and must be less than 100,000. **DO NOT** include dollar signs.
- Term(s) – must be one of the drop-down menu options: **Fall/Spring, Fall Only, Spring Only, or Summer**
 - Selecting the “Fall/Spring” option will divide the award amount equally between the two semesters. For example, if the award amount is \$1000 and the Term(s) is “Fall/Spring”, \$500 will be placed into Fall and \$500 will be placed into Spring
- **You can put multiple item types on the template. You do not need to upload a separate file for each item type.**

NOTE: If you are using the **copy and paste function**, please review the detailed information on pages 13-14 to ensure the formatting is not altered.

EXAMPLES:

Every scholarship will require an Empl ID, Item Type, Award Amount, and Term(s). Below is an example of a total scholarship award of \$2000 with an even split Fall/Spring award (\$1000 will be placed into Fall, and \$1000 will be placed into Spring).

The screenshot shows the Excel interface with the 'Home' tab selected. The formula bar displays 'Fall/Spring'. The spreadsheet contains the following data:

ID	Item Type	Award Amount	Term(s)
9999999	9400000000000	2000.00	Fall/Spring

A tooltip for the 'Term(s)' dropdown menu is visible, stating: "Term(s) Use drop-down to select term(s)."

Below is an example scholarship file entered with multiple students and multiple item types as even split Fall/Spring awards.

The screenshot shows the Excel interface with the 'Home' tab selected. The spreadsheet contains the following data:

ID	Item Type	Award Amount	Term(s)
9999999	9400000000000	2000.00	Fall/Spring
9999998	9400000000003	1000.00	Fall/Spring
9999997	9400000000006	5000.00	Fall/Spring
9999996	9400000000008	1500.00	Fall/Spring

NOTE: If you wish to cancel out a scholarship for one term, you would enter the amount and term you wish to keep. For example, if you originally had a \$2000 Fall/Spring award, and now want \$1000 Fall Only, you would create a file with the Student ID, Same Item Type, Award Amount of \$1000, and Term(s) Fall Only. This new file will **replace** the previously entered scholarship award (there is no need to enter a separate line for Spring).

The screenshot shows the Microsoft Excel interface with the 'Dept Scholarship' title. The spreadsheet has columns B through F. Row 1 contains the title 'UM Scholarship File Upload Template *required to upload a file.' Row 2 contains the headers: 'ID', 'Item Type', 'Award Amount', and 'Term(s)'. Row 3 contains the data: '9999999', '9400000000000', '1000.00', and 'Fall'. A yellow tooltip box is visible over the 'Term(s)' cell, stating 'Term(s) Use drop-down to select term(s)'.

ID	Item Type	Award Amount	Term(s)
9999999	9400000000000	1000.00	Fall

If you wish to add or adjust an amount for one term (no longer keeping it an even split), you would enter the amount and term you wish to adjust along with the term you want to keep. For example, your original award was uploaded as F/S for \$2,000 and now you want to increase the Spring disbursement by \$500 so the new total award is \$2,500. You would enter one line with Fall at \$1,000 and another line for Spring at \$1500. If you were to only upload a new line for the Spring amount of \$500, it will replace the original F/S for \$2,000 with the Spring only award of \$500.

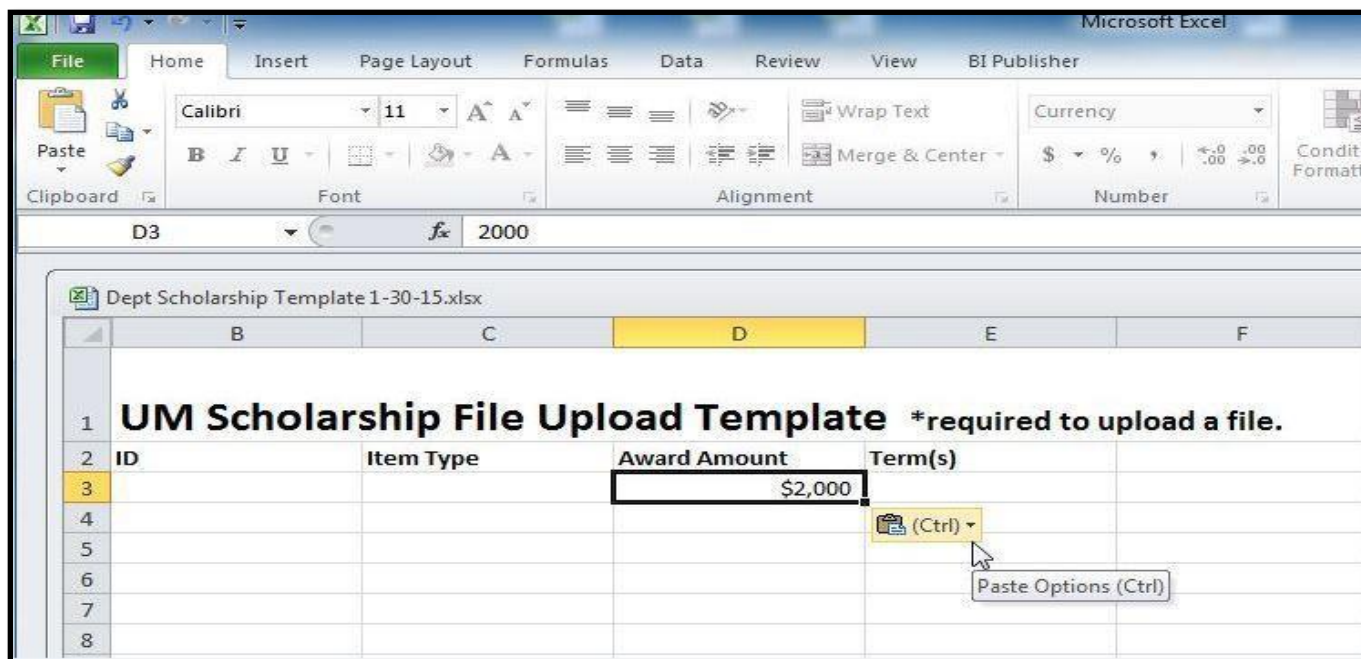

The screenshot shows the same spreadsheet as before, but with an additional row. Row 4 now contains the data: '9999998', '9400000000000', '1500.00', and 'Spring'. The yellow tooltip box remains over the 'Term(s)' cell of row 4.

ID	Item Type	Award Amount	Term(s)
9999999	9400000000000	1000.00	Fall
9999998	9400000000000	1500.00	Spring

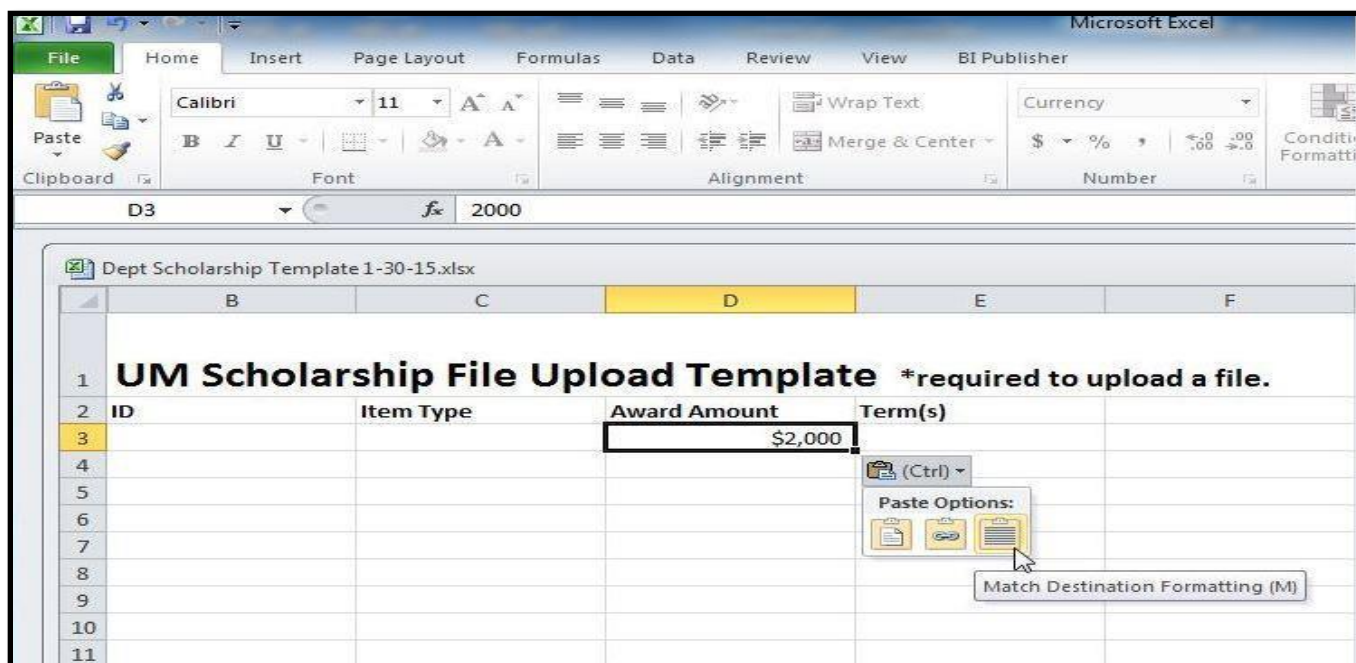

COPYING AND PASTING

****NOTE:** If you use a copy and paste from a different source (even another Excel spreadsheet), make sure you choose “Match Destination Formatting” or “Values” from the paste options. Using the default or “Keep Source Formatting” will result in the edits being overridden and your .csv file not being properly formatted for upload. If improperly formatted, your file will error.

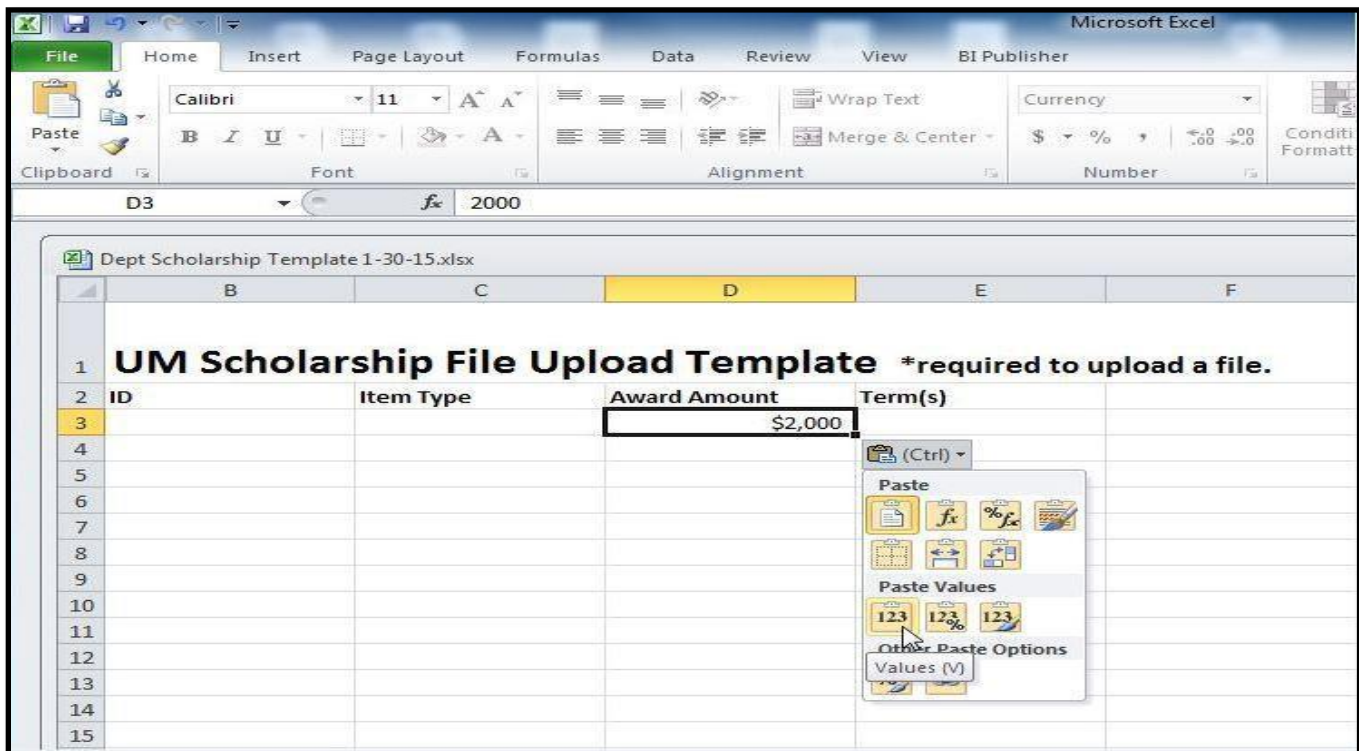

Use “Paste Options”

Use “Match Destination Formatting”

Or Use “Values”

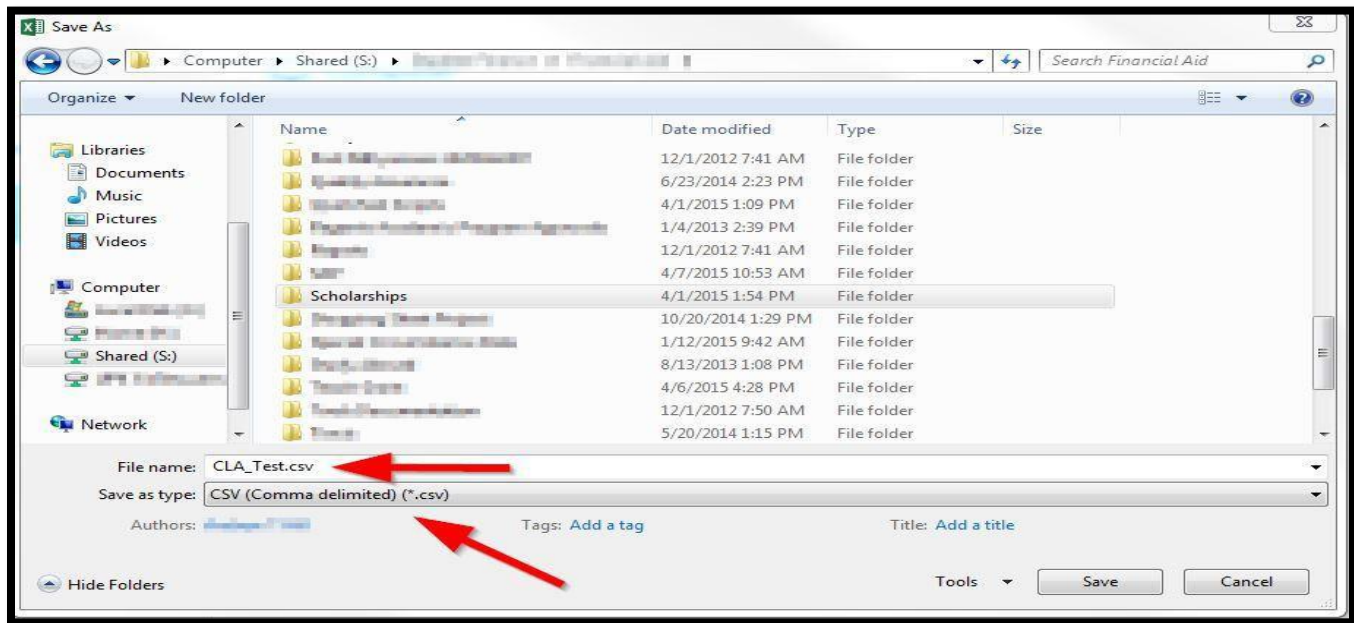

SAVING THE TEMPLATE

You must do a '**Save As**' and specify a **.csv** as the format (in a secure location).

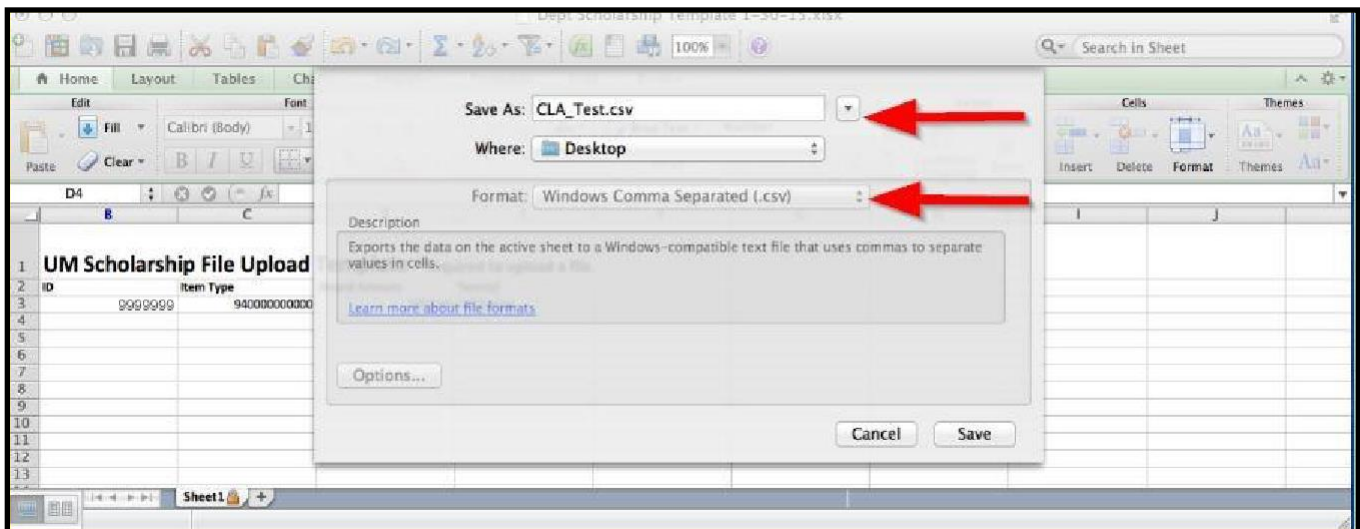

You must start the file name with your college abbreviation (e.g., CLA, CSE, CSOM, CEHD, CDES, CFANS, CCE, DENT, PHARM, etc.). If you are not in a college, use your area abbreviation (e.g., OED for the "Office of Equity and Diversity" or OSF for the "Office of Student Finance", etc.) The file name cannot be longer than 31 characters including the .csv extension.

NOTE: If using a PC, do the '**Save As**' a **Comma delimited .csv** file: If using a Mac, see 2nd screenshot below.

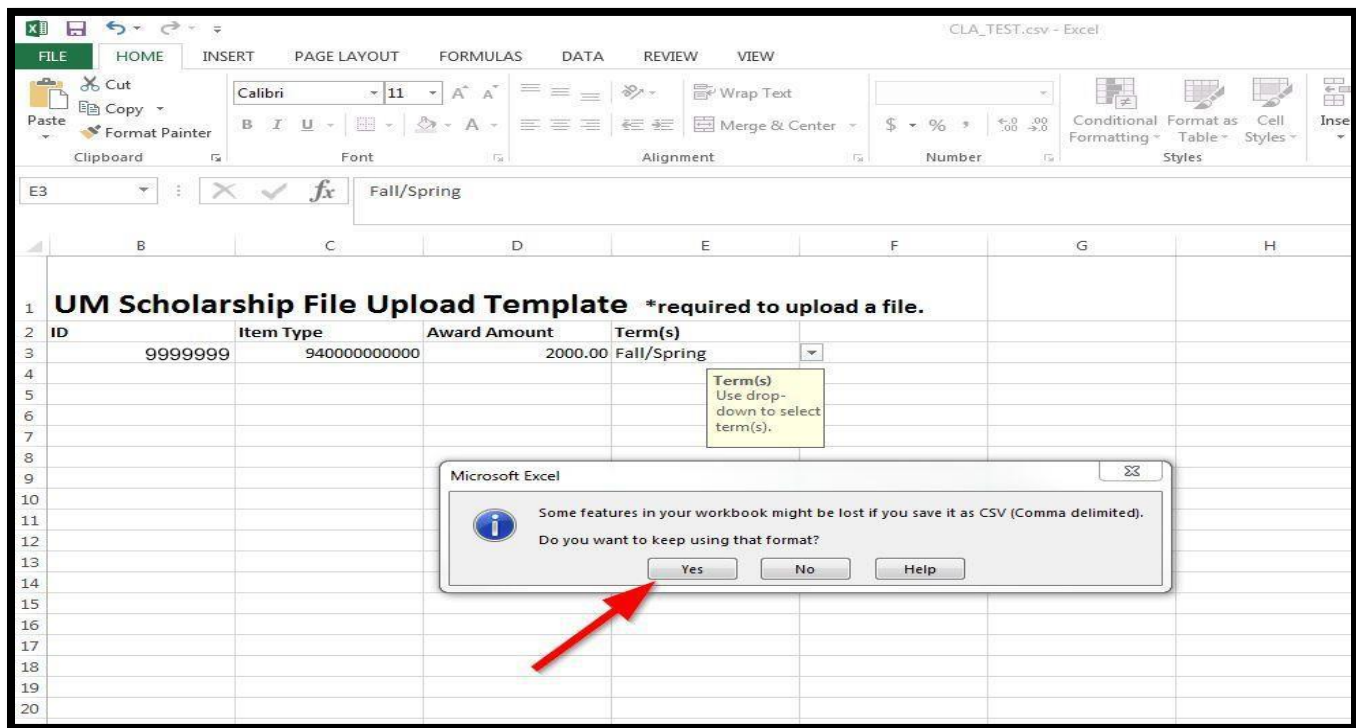

CAUTION: Once you save it as a .csv file, you cannot continue to edit the file. It should be considered a final step and ready to upload into PeopleSoft.

NOTE: If using a Mac, do the '**Save As**' a **Windows Comma Separated .csv** file (see below):

After the 'Save As', It will ask you to keep using format. Click "Yes".

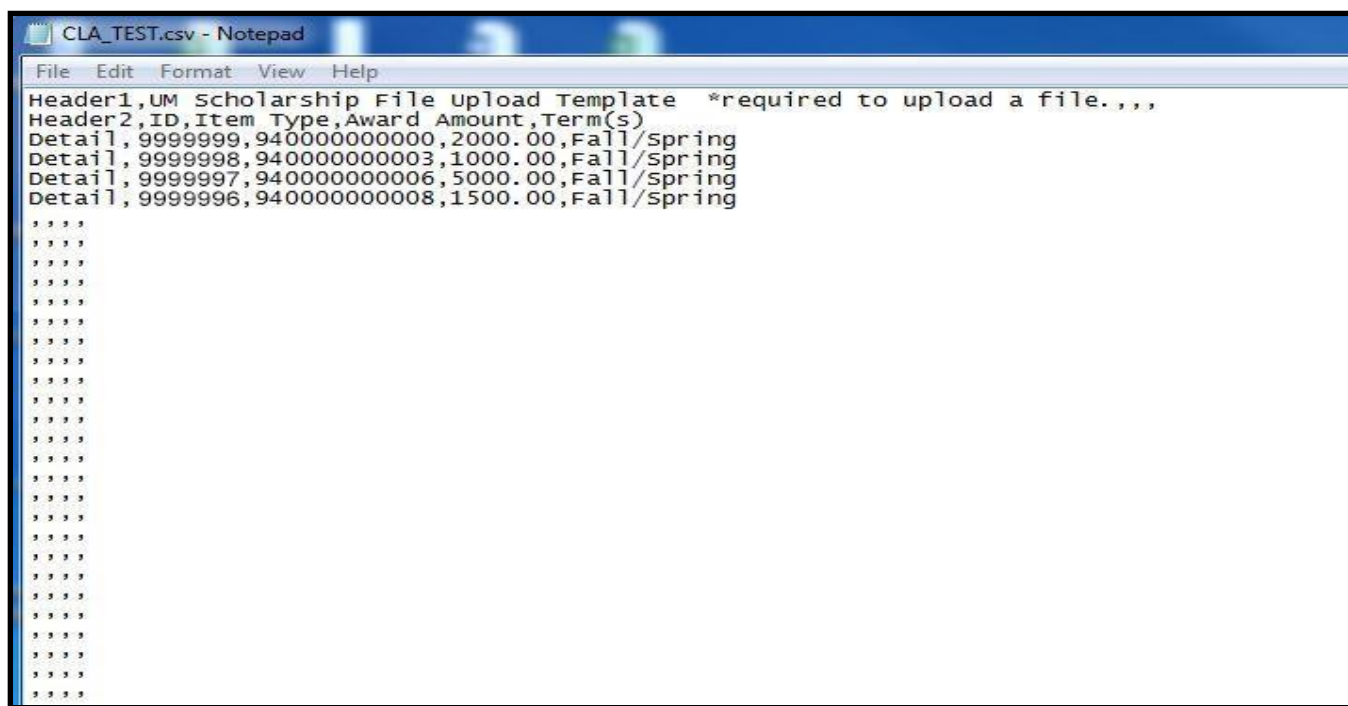

Preview the File via Notepad (Optional)

If you would like to make sure the file is formatted correctly, you may review the contents of the file before uploading to PeopleSoft. Find the file, right click and find *Open With > Notepad* (**Mac users – open with TextEdit**)

In Notepad, a correctly formatted file should look like the below screenshot. You should see the Student ID, Item Type, Award Amount (**without a \$ or any other symbols**) and Terms (abbreviated). The formatting seen below is required for uploading purposes. If anything appears as incorrect, you will need to re-enter all of the data on a new excel template from the ASR webpage on: [asr.umn.edu/training/scholarship administrators](http://asr.umn.edu/training/scholarship_administrators)

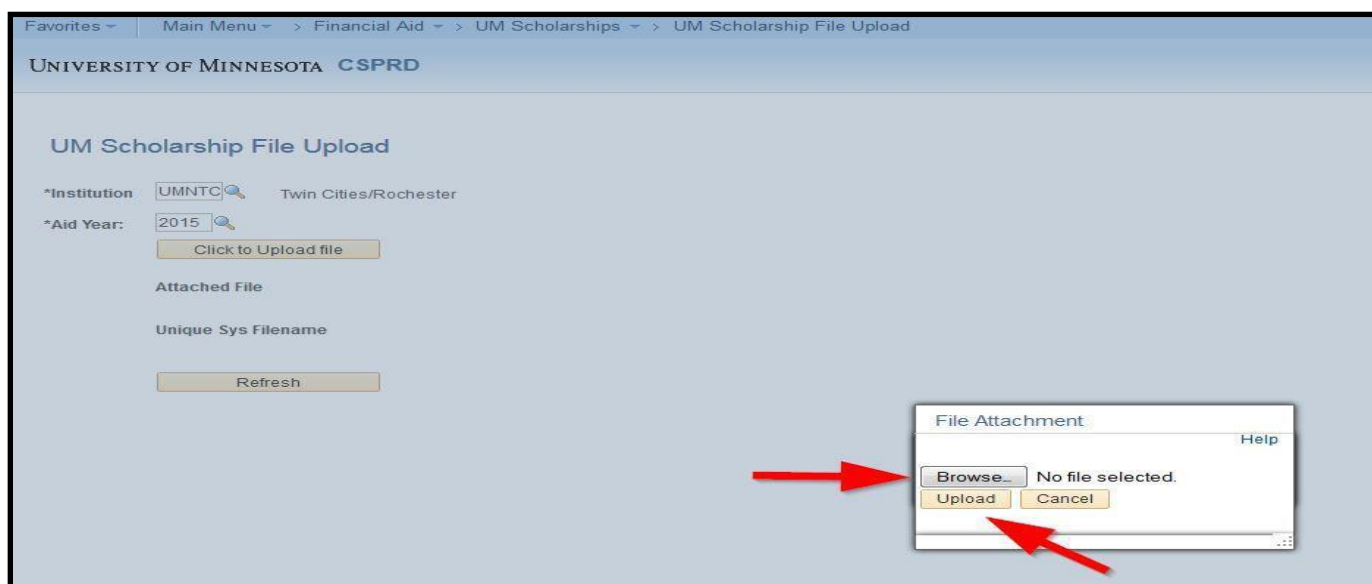

Uploading Scholarship (.csv) Files: (PeopleSoft Scholarship Entry)

1. In PeopleSoft, make sure you are in **Campus Solutions** and navigate to:
 - Main Menu > Financial Aid > UM Scholarships > UM Scholarship File Upload
2. Enter:
 - Academic Institution
 - Aid Year, and then
 - click on 'Click to Upload file' button.

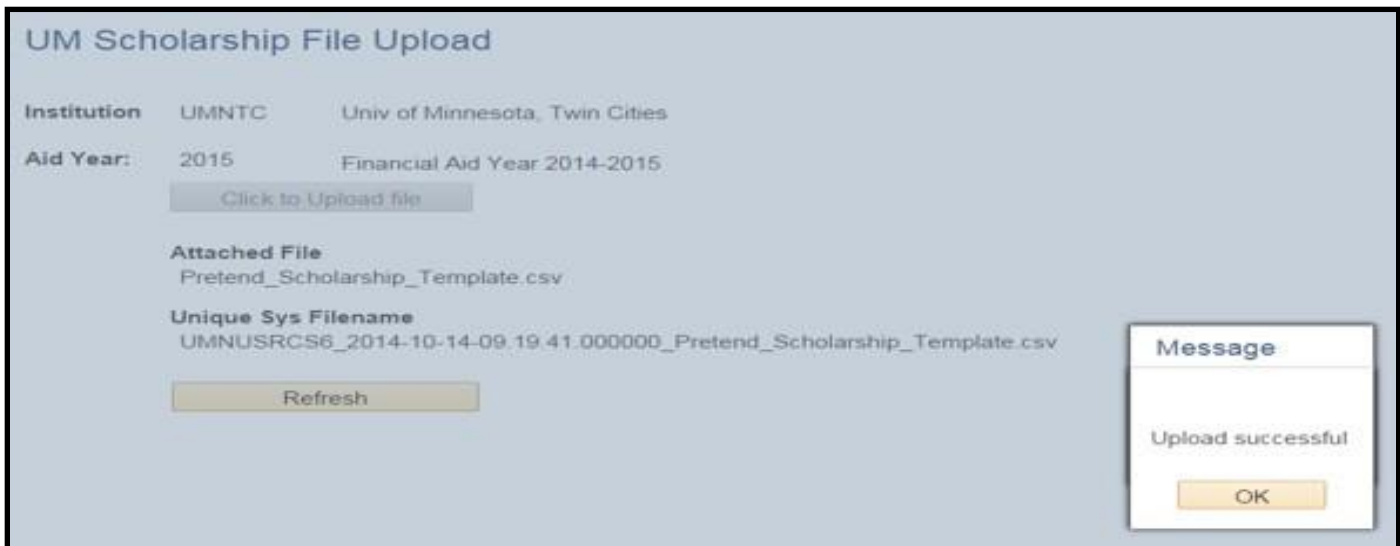

The screenshot shows the 'UM Scholarship File Upload' page in the PeopleSoft system. The breadcrumb trail at the top reads: 'Favorites > Main Menu > Financial Aid > UM Scholarships > UM Scholarship File Upload'. The page header is 'UNIVERSITY OF MINNESOTA CSPRD'. The main title is 'UM Scholarship File Upload'. Below the title, there are two dropdown menus: '*Institution' with 'UMNTC' selected and 'Twin Cities/Rochester' displayed, and '*Aid Year' with '2015' selected. A red arrow points to the 'Click to Upload file' button. Below this button is the 'Attached File' section, which is currently empty. Below that is the 'Unique Sys Filename' section, also empty. At the bottom is a 'Refresh' button. Another red arrow points to the 'Click to Upload file' button.

3. Locate your .csv file on your computer and select it for upload.
4. Click 'Upload' button.

This screenshot shows the same 'UM Scholarship File Upload' page as the previous one, but with a 'File Attachment' dialog box open. The dialog box has a title bar 'File Attachment' and a 'Help' button. It contains the text 'No file selected.' and three buttons: 'Browse...', 'Upload', and 'Cancel'. A red arrow points to the 'Browse...' button, and another red arrow points to the 'Upload' button. The background page shows the same navigation and form elements as the previous screenshot.

5. After you “Click to Upload File,” your scholarship entry process is complete. If the upload is not successful, it means one of two things:
 - 1) you do not have your file formatted to a .csv file or
 - 2) your file name contains more than 31 characters. If that is the case, you will need to re-create the file.
6. The file(s) you uploaded will be processed automatically overnight if you enter the file by 1:00 pm that day. The process runs Monday – Friday evenings.

Warning: Scholarship files uploaded after the official close of the semester or aid year may not be processed correctly in PeopleSoft. If you have a situation that requires a scholarship adjustment after the close of the semester or aid year, please contact the Office of Student Finance Scholarship Unit at saosf@umn.edu for guidance.

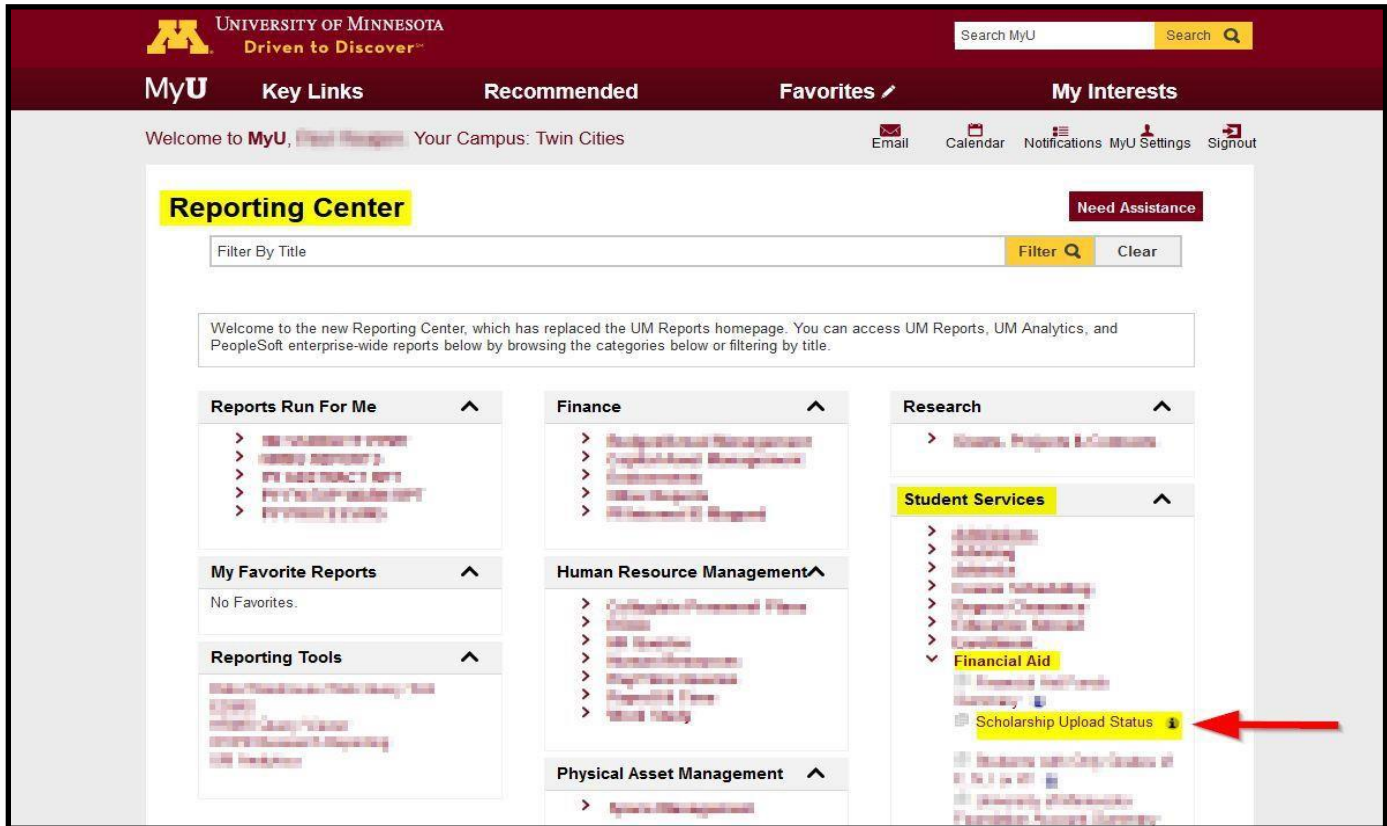

- New scholarship files may not be uploaded after the financial aid year has ended. The financial aid year ends on the last official day of Summer in August. (FYI: May session is part of Summer).
- Fall only scholarships must be entered prior to the end of fall semester
- Spring only scholarships prior to the end of spring semester.

Reporting Center:

The *Scholarship Upload Status Report* provides scholarship administrators the ability to see the status of their department's scholarship files after they have been uploaded into PeopleSoft.

NOTE: To review your entries in the *Scholarship Upload Status Report*, allow one business day for the file(s) to be processed (if the file was entered before 1:00 pm)

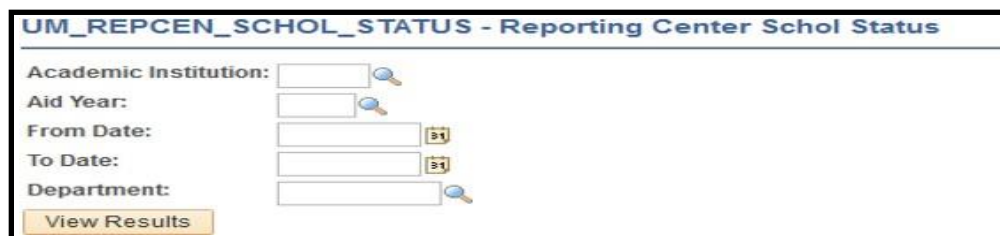

To find the report, when you are in your portal, click on 'Key Links'. Then from the drop-down select 'Reporting Center'. In the 'Reporting Center', you will find the "Scholarship Upload Status" Report under *Student Services > Financial Aid*.

Note: Click on the "information" button left of the report for further documentation about the report.

The report will prompt for:

1. Academic Institution
2. Aid Year
3. Date Range
4. DEPT ID.

Review your report. If the record went through and posted, it will show “processed”. If a record shows “error” or “skip” or “suspend”, or “duplicate,” the Scholarship Unit will resolve the issues and contact you if necessary.

You also have the option to export the report to Excel. In Excel you have the option to sort and filter results of the report.

Note: Some key terms to note on the report:

- Trans Date: Date scholarship file was posted
- Trans Nbr: File number in PeopleSoft
- Status: “Processed”, “Error”, “Skip”, “Suspend” or “Duplicate”
- Term(s): FS = Fall/Spring, FO = Fall Only, SO = Spring Only, ZO = Summer

Note: For any questions about disbursement of scholarships, please check STAR.

Guidance for Adjusting or Adding Amounts to Existing Scholarships:

Adjusting/Adding Scholarships

Original Fall only Award

UM Scholarship File Upload Template *required to upload a file.				
ID	Item Type	Award Amount	Term(s)	
9999999	940000000000	1000.00	Fall	

Adding a Spring Award:

EXAMPLE #1

You determine that the student is now eligible for a Spring award that matches the Fall award.

UM Scholarship File Upload Template *required to upload a file.				
ID	Item Type	Award Amount	Term(s)	
9999999	940000000000	2000.00	Fall/Spring	

EXAMPLE #2

You determine the student is eligible for an additional \$2000 for Spring.

UM Scholarship File Upload Template *required to upload a file.				
ID	Item Type	Award Amount	Term(s)	
9999999	940000000000	1000.00	Fall	
9999999	940000000000	2000.00	Spring	

If you realize you made a mistake after submitting a file, please reach out to us at saosf@umn.edu before you take any steps to correct the file. We will assist you in resolving any issues.

UM Scholarship File Upload Template *required to upload a file.

ID	Item Type	Award Amount	Term(s)	
9999999	940000000000	6000.00	Fall/Spring	

Adjustments to one term:**EXAMPLE #1**

You find out that the student is attending less than FT in Spring and need to prorate their Spring award:

UM Scholarship File Upload Template *required to upload a file.

ID	Item Type	Award Amount	Term(s)	
9999999	940000000000	3000.00	Fall	
9999998	940000000000	1500.00	Spring	

Do NOT enter the file using the Fall/Spring split if there will be a different award amount for Fall than Spring or vice versa. If you entered the award as \$4500 Fall/Spring, it would split that amount evenly between the terms

EXAMPLE #2

You determine that the student is no longer eligible for their Spring disbursement and you need to cancel the Spring award:

UM Scholarship File Upload Template *required to upload a file.

ID	Item Type	Award Amount	Term(s)	
9999999	940000000000	3000.00	Fall	

Do NOT enter a file with a line for 0.00 Spring only as that will cancel the entire award (Fall and Spring). There is no need to enter a second Spring line with 0.00.

EXAMPLE #3

You determine that you want to increase the Spring award by \$500.

UM Scholarship File Upload Template *required to upload a file.

ID	Item Type	Award Amount	Term(s)	
9999999	940000000000	3000.00	Fall	
9999999	940000000000	3500.00	Spring	

Do NOT enter a file for only the 500.00 Spring increase amount as that will replace the other \$6000 Fall/Spring award already in the system with the \$500 Spring only award.
